Myself

Full Stack Engineer building web products since 2021, with 4+ years of commercial experience. I ship TypeScript, React and Next.js products end to end: Node.js, PostgreSQL, Prisma, integrations, testing and production delivery. Strong in product UX and frontend architecture; based in Vienna, German A2.

Experience

Frontend Developer & Designer - Marswalk Media

Sep. 2025 - Present

- Sole technical owner for a bilingual Next.js 16 / Sanity 5 platform, Webflow migration and client portal.
- Protected SEO: Search Console-informed 308 redirects, hreflang, sitemap, JSON-LD and crawler-readable SSR.
- Built a consent-aware lead funnel with server validation / fail-closed Make delivery; CI has 300 Node contract tests for rendering, SEO, redirects and architecture.

Frontend / Product Engineer (Contract) — OBRIO

Jan. 2025 – Jul. 2025

- Built a Next.js / TypeScript organisational-structure dashboard used by 300+ OBRIO employees, with clear hierarchy, fast discovery and Google SSO.

Freelance Frontend Developer

Jan. 2024 – Dec. 2024

- Delivered responsive Next.js and WordPress sites for Skelya, Verus Property and Skeptic; Skelya included SEO, payments and Telegram client-consultant matching.

Frontend Developer - Kicks Space (Sneakers Store)

Mar. 2023 - Nov. 2023

- Built responsive e-commerce UI with React and Tailwind CSS.
- Implemented adaptive layouts and UI logic across screen sizes.
- Worked in an Agile cross-functional team through sprint planning, code reviews, and iterative UX improvements.

Frontend Developer - Menudget (Smart Menu)

Oct. 2022 - Apr. 2023

- Developed interactive digital-menu components with Next.js and Tailwind CSS.
- Improved responsive behavior and visual presentation across screen sizes.
- Focused on smooth cross-device interaction and clearer presentation of smart-menu features.

Selected Projects

AppScanner — Vienna Proptech Decision Tool

Next.js 16, TypeScript, PostgreSQL, Prisma, Docker, Inngest, Clerk, AI SDK, Playwright, Telegram

- Independently built a private proptech decision tool for Vienna rentals: 6 listing sources, deduplication, and scoring for commute, amenities and cost.
- Scheduled crawls via Inngest with AI-extracted listing data; CI runs unit, integration and Playwright E2E tests with axe WCAG checks; deduplicated Telegram alerts.

Quizzley — AI Quiz Platform

Next.js, TypeScript, Supabase, Drizzle ORM, LangChain/OpenAI, Stripe

- Built an AI quiz platform used by 300+ users, generating personalized quizzes from uploaded materials via LangChain/OpenAI.
- Auth, PostgreSQL/Supabase with Drizzle ORM, and Stripe payments for subscriptions.

Skills

Technologies

Frontend: React, Next.js, TypeScript, Tailwind CSS

Runtime/Libraries: Node.js, React, Next.js, Three.js, Tailwind CSS

Data: PostgreSQL, MongoDB, Prisma, Supabase

Tools: Git/GitHub, Vercel, Docker, Sanity CMS
